

HEALTH STATEMENT OF A TRAINEE SAILING ON BOARD BARK EUROPA

The Bark EUROPA is registered as a sail training vessel and as such our guests will be mustered as voyage crew/trainee. This means that, more than on a passenger's ship, the trainee will be asked to help the permanent crew to sail the ship. The trainee will join the watch system, will be handling lines, set sails, climb the rigging and assist with maneuvers.

The shipping company Rederij Bark EUROPA makes every effort to ensure the safety of every person on board. Our trainees are expected as well to assume responsibility for their own safety. Insufficient mental or physical health may create undue risks, not only to the trainee in question, but it may also threaten the safety of other trainees and crew.

When undertaking a long ocean voyage where we are several days of sailing away from the inhabited world, it is important to realize that extensive medical care is not available. Transport to the mainland is often impossible. On board there are crew members with a medical training, and there is a small emergency room with a number of medicines and wound dressings.

This certificate is to be completed and signed by the trainee's physician, attesting to the fact that:

STATEMENT TO BE SIGNED BY THE TRAINEE

I confirm that my state of health is sufficiently good to undertake a sea voyage to remote areas on a sailing vessel. The doctor's statement above is correct and complete to the best of my knowledge. I agree to immediately advise Bark EUROPA of any change in the status of my health condition prior to boarding.
